Darwin Tulips

Large rounded flowers on tall stems, remarkable for their brilliance and wide range of color. The most popular of all Tulips. Plant in shrub or evergreen border and perennial beds.

lts This Fall

Because these bulbs must be planted beginning in October, we suggest that you plan now to plant several of these choice varieties. They will bloom next Spring and continue blooming many seasons thereafter. The long-stemmed Tulips and Narcissi are especially fine for cutting and bouquets.

Narcissus or Daffodils

Every home should have some of these long-stemmed flowers in perennial beds or in group plantings in the shrub or evergreen border.
